

# ISLAND TIME

WRITTEN BY DEBORAH L. MARTIN

## THE CENTER OF THE KITCHEN TAKES CENTER STAGE

In a kitchen overlooking Conscience Bay on Long Island, designer Melissa Fenigstein of New Age Interiors created a continent of an island for a family that needed a lot of space for healthy cooking, baking, and entertaining. The 10-foot-by-7-foot island includes a lift for a stand mixer and an indoor herb garden. Appliances by Sub-Zero and Thermador, and a backsplash by Artistic Tile complete the picture.
